Emergency Petition to the Democratic National Committee

The Democratic Party has failed to confront the urgency of this perilous moment for the future of the United States, as reflected in recent public opinion polls. For the sake of the future, we insist that the Democratic National Committee should convene an emergency meeting of all its members – fully open to the public – as soon as possible. Waiting until the next regular meeting in late summer would be irresponsible and unacceptable.

Business as usual must give way to truly bold action that mobilizes against the autocracy that Donald Trump, Elon Musk and their cronies are further entrenching every day. The predatory, extreme and dictatorial actions of the Trump administration call for an all-out commensurate response, which so far has been terribly lacking from the Democratic Party. It is time for the Democratic National Committee, as the organization tasked with responding to the concerns of Democrats, to heed the insights of progressive policy analysts and grassroots activists – and that should begin at this emergency meeting.

Too many members lack the energy to do more than stand around and complain. Chris Murphy, Bernie Sanders, Liz Warren, Corey Booker and some others are doers in the senate. They are speaking out. Some are doing work on the sidelines. That can be helpful. About a dozen need to step up or step aside. The last thing we need is for leaders to be anonymous.

I do not vote for "centrist" Democrats who, since the 1970s, have supported nominations of ideological, unethical SCOTUS justices who have rewritten our Constitution to allow multinational corporations and billionaire owners to rule our nation [decisions that codify money is free speech, corporations have constitutional rights, states can't control political contributions, and essentially make bribery legal]. The massive crowds attending Sanders and AOC rallies around the nation in Republican strongholds tell us something: both duopoly parties are corrupt and act for self-benefit. If neither party changes course to serve the majority of the people with truth, transparency, inclusive participation, empathy and morality to overthrow the current dictatorial regime, we will need a revolution for system changes.

Democrats have to have a strong and far sighted plan to stand up and reverse the corrosive and destructive direction these people who are truly mentally ill, corrupt and ignorant are taking. It means going beyond "the squad" or smaller individual interests that Democrats have as much as Republicans. Democrats have to fight harder and think bigger if we want to have a United States of America and "the Republic". that has given us all so much.

Audrey Paisley	Kissimmee	FL	Business as usual must give way to truly bold action that mobilizes against the autocracy that Donald Trump, Elon Musk and their cronies are further entrenching every day. The predatory, extreme and dictatorial actions of the Trump administration call for an all-out commensurate response, which so far has been terribly lacking from the Democratic Party. It is time for the Democratic National Committee, as the organization tasked with responding to the concerns of Democrats, to heed the insights of progressive policy analysts and grassroots activists ,Äì and that should begin at this emergency meeting. Do the job that we elected you to do and be the ones to help save Democracy.

Present an Amnesty Bill by Amendment 14, Section 3, of the Constitution for Trump's attempted insurrection and his aiding and abetting the January 6 insurrectionists by pardoning them. Audit the 2024 swing state presidential elections to verify whether or not anomalous statistics indicate hacking of the vote counting tabulators. This is just election integrity--not election denialism--to prepare for secure midterm elections. Don't just wait for Trump to implode. Use the voter energy AOC and Bernie Sanders are building to disable or remove Trump from office.

Something needs to be done and done right away especially while people are languishing in a horrible prison outside of this country as well as other people are languishing in various ice detention centers across the country; this is something we need to be very concerned about as well as some of the United States supreme Court rulings also, Thank you. And then Tulsi gabbard also and that whole group chat text messaging debacle that no one has had to take any responsibility for; let alone experience any punishment because of the person in the white house.

Secondly, Elon & his team have accessed every Government computer system & behind locked doors & w/o supervision were able to download every American,Äôs personal data & the Whistleblower,Äôs testimony & evidence shows the Largest Breach of Security this country has ever had! That has happened at SSA & the Federal Reserve & More! We need an independent forensic investigation NOW! Your party has slow walked us into fascism, fund raising the whole way. You are all complicit. The undermining of Human Rights and International Law, the unchecked corruption of the Supreme Court, Citizens United and unlimited dark money campaign contributions, AIPAC, the militarization of our police and infiltration by White Nationalists, the unchallenged voter suppression, and the attacks on immigrants, people of color, and LGBTQ communities, all have led us to where we are now. You've done nothing to stop it. This is fascism we're facing. Act accordingly. Fight or get out of the way.

The metastatic cancer that has taken over the Republican Party will not be eradicated any time soon. We must take pages from their playbook and be loud and be willing to get in the trenches and use some of their tactics. You need to be everywhere in Republican states and rural areas and engage young people. We can not wait even a minute. Trump is turning this country into Hungary and Russia as we speak. I am disappointed that the Democratic Party keeps sending fundraising emails but do nothing to fight back and engage in communities. The local parties are active but they don't have the money and resources that state and national parties do. No more giving in to them or making e cases that we are not in the majority right now. Also we need several will timed REPETITIVE national demonstrations that get out millions for more than a few hours or just a short single day. The demonstrations needs to be so informative that the "micro bite" on the evening news is not enough so the masses who are not engaged GET ENGAGED! Ideally we need many millions to walk out of their employers businesses, or the disrupt "business as usual" IE slow walk business such that it gets business leader to realize they need the public masses, that it disrupts the republican disruptive agenda. In other words, the DNC has to not just sound off but has to provide real l.

Danna Baker	Richmond	TX	One thing that really irritates me is getting an email from DNC that says it is a poll or asks a question, such as "Do you think Trump is destroying democracy?" When I choose to answer yes there are other questions that follow but then the last thing is wanting a donation. If I don't want to donate at that time my answers are not recorded, I have to donate to submit my answer. This sort of trick turns people off and is not a good way to communicate! I want the DNC to support the town halls and the candidates who are not running in the "critical" races. All races are important now.

Lawrence Tribe, Constitutional Scholar at Harvard identified that Trump's actions amount to Treason. How about espionage as well? Why aren't more public figures and journalists calling his behaviors and actions fitting the definition of Treason. In June 1953, Julius and Ethel Rosenberg were executed for conspiracy to commit espionage under the U.S. Espionage Act of 1917. Let's visit that Act in 1917 and evaluate Trump's conspiracies, actions with Putin and behaviors that are against the laws of our Democracy. What is wrong with the Supreme Court, five can be relied on for staying with the Constitution, the other four are political hacks and traitors to our Democracy, they are not legal scholars.

They promote false truths(lies), don't care about the worlds future, or anyone that actually works for a living. Other nations can't trust the USA for anything except another bat shit crazy move! He has picked the most unqualified people for his cabinet, most of them also doing damage to our country, due to their ignorance. Please make the nightmare go away. Thank You for your time.
Gina Jarvi	Saint Paul	MN	My disappointment is real, but honestly I am not surprised. The party hasn't had a backbone since Reagan took office, and it has completely avoided confronting what was in our face during Trump's first administration. The Party did nothing to secure the constitution for what was going to happen should he win again. Regardless of the faith you had, clearly there were no safeguards to protecting our democracy, since apparently you can't even call on the justice department or the National Guard to protect all of the important departments of government. It's just so incredibly frustrating that it will once again be the PEOPLE, who you are meant to protect, that will make this stain go away. Learn from the Progressives in your party: Bernie Sanders, et al. Change!

Already these clowns and cowards have hurt our citizens, our reputation, and the world's confidence our country. Any mule can kick down a barn, but it takes positive action to build or maintain a democracy. Fight to stop this overthrow of all our rights and plundering of our social security. Congress has the right of the purse and Donald and his sycophants have usurped it. The emperor clearly has no clothes so call him out and be innovative in taking back our system of checks and balances. Get the press to address how he is cheating and stealing from the security costs to his golfing. Liz Cheney, Bernie, and AOC seem to be the only ones with balls and fight. Helene Whitson	Berkeley	CA	Time to sweep out the old Democratic Party establishment leadership and get some fighters in like AOC, Jasmine Crockett, Maxwell Frost, etc. We don't need a milk toast like Jeffries, who wrings his hands and doesn't know what to do. My comments aren't age based (and I'm 83). Look at Bernie! It's ideas and policies. Get out there! Talk to ordinary people! Show them you will fight for them, and they will vote for you. It isn't 1950. It's 2025, and the Democratic Party must show that its leaders will fight for ordinary people and fight for the future, including Medicare for All, dealing with climate change, equality for all, including the rights of marginalized communities (which seems to be everyone but white Christian males), and especially for the adherence to our laws. Tax the rich. Get money out of politics. We've seen how some of our younger politicians are showing muscle and fighting back. We can,Äôt afford Democratic politicians who don,Äôt fight back. Get rid of the Democratic Party ties to corporations and military-industrial complex money.

It is imperative to defend the country, its government, and its people from the depredations of a self-centered, ignorant and cruel President and the minions who serve his will without regard for their commitment to defend the Constitution of the United States of America. At the least All mentions of Donald Trump must: Acknowledge that he won the majority of votes from those who could vote. When those who were denied the ability to vote, despite their willingness and ability to do so under the law, the Donald Trump lost the election. There is no mandate. Confirm that he is a person of limited capacity to reason and understand. He is almost as stupid as a post. Repeating a lie for forty years does not constitute forty years of experience. Recognize that his imagination is limited in scope and range. For him "America" is the same thing as "Donald Trump and no one else." The range of his imagination is the amount of gold and money and influence that he himself possesses. These ends justify any means he can use to achieve them. Clarify constantly his cruelty, his barbarity, his demonstrated sadism. Rather than shrinking from inflicting pain, he relishes it. He also does anything that will deflect pain from him personally. This leads to his practice of lying, distorting the truth, and always providing an

The people want real and lasting change. Biden didn't move far enough, fast enough to blunt the MAGA propaganda. When voters saw the Democrats retreat to what used to be the political mainstream, they voted for Trump rather than accept four more years of the status quo.

If the Democratic Party cannot successfully use the plethora of evidence the Republicans have provided of their unconstitutional acts and actions in reining in their attack on democracy, the Democratic Party will suffer the fate of the Federalists in 1824 and the Whigs in 1856. If the Party doesn't act with aggressiveness and haste, it will fall. The CONSTITUTION is being obliterated and political actors from all parties, Democrats, Republicans, and Independents, have sworn oaths to protect it and the nation it founded.

S. A. Linden	Columbus	OH	Democrats must have coordinated strategy. And the DNC, highly unpopular with their own members, must collaborate that strategy with its progressive MAJORITY. By "progressive," I mean New Deal Democrats (remember them?), who pulled America out of the fire during the depression. We are TIRED of always playing catch-up with garden variety politicians. Tax the wealthy and use the money to fund the social safety net. Generational change demands progress! Progressives realize that the Democrats elect far too many mainstream corporate leaders who are disconnected from the working poor. As long as their attention and allegiances are divided, American democracy is under threat. A democracy that's elected by the few is not a genuine democracy. PROTECT THE VOTE!

Leslie McCollom	Austin	TX	The DNC has to become more activist and must engage voters under 30 if it wants to improve its performance. What the DNC has been doing has not been successful with a large number of voters, and the best place for the DNC to gain new voters who will be very active, and will support initiatives on climate change, gender equality, abortion rights, and restoration of the cuts to education, medicaid, SNAP, FEMA, and all of the agencies that provide the safety net for the poor. It is time for the DNC to seriously invest much more in attracting young voters. History tells us that it is very difficult, and sometimes impossible, for democrats to win unless the youth vote supports it. The democratic party should also be financing litigation against the actions of Trump/Musk.

It is time for younger, more progressive leaders to take the reins to protect OUR DEMOCRACY, to protect OUR VOTES, to protect OUR CONSTITUTION, to protect the Environment. to see to it that OUR CHILDREN get the best possible EDUCATION and HEALTH Care so that they will eventually be equipped to take their places among OUR country's LEADERS. Lack of courage and conviction have made the Democrats fail us again and again. We need the kind of leadership that Alexandria Ocasio Cortez, Ro Kahanna, and Rashida Tlaib, Pramila Jayapal and Ayanna Pressley have the ability to provide. Most urgent issue facing mankind worldwide is environment, as we are already 50 years behind especially in fossil fuels/emission reduction. Allowing air and water pollution unchecked at this point could be irreversible, while economic terrorism and agency annihilation can be undone with policy changes. My friend, a hydrologist with the USGS in DC told me that a majority of waterways in the central USA are already dangerously contaminated with toxic PFAs and agricultural chemicals, we need more strict regulation not less. The party had to know he could not pull this off. Yet you put him in there anyway. You should have told him No. The 2024 election should have been a gimme. You subbed her in when there was almost no chance for to win. You should have lead with her. Giving her a chance to show the people. What are you going to do now? Get a backbone and stand up to them. He is a traitor. He has betrayed this country time and time again. If all of you educated people put your brains together you could and should make him and his cronies sooner not later.

All people of good faith need to fight fire with fire & this means the Democrats have to treat this as a "war" of principles & decency. Donald Trump is behaving like the King that his ego thinks he is. We fought a revolution to "depose" a king & elect a government "by the people, for the people". That's plural, not a government for one delusional, Fascist, racist, self serving autocrat whose only loyalty is to himself. Democrats, fight like our lives & our treasured Democracy depends on it, because it does. Otherwise, America, "the land of the free", will no longer exist.

Marilyn Massard	Highlands Ranch	CO	Bernie Sanders and AOC are the only people outright fighting the Trump Regime. Had the DNC not sold out to Hillary Clinton in 2016 and the DNC and Obama not kneecapped Bernie in 2020 we would not be in this Constitutional Crisis. The Democratic National Committee should convene an emergency meeting of all its members ,Äì fully open to the public ,Äì as soon as possible. Impeachment hearings need to start immediately even if there is no chance of passing. These crimes need to be documented and on record. It is time for the Democratic National Committee, as the organization tasked with responding to the concerns of Democrats, to heed the insights of progressive policy analysts and grassroots activists ,Äì and that should begin at this emergency meeting... If the Democratic Party wants any chance of regaining power, they need to become more progressive. If the DNC does not change its ways, possibly it's time for a 3rd party. Actually, it's past time for a 3rd party that represents the people and not the big donors.

The DNC leadership needs to join Bernie Sanders and AOC to expand the number of similar rallies across the U.S. and continue to build the grassroots movement supporting them! That movement has vast support across the political spectrum, in red states and blue, as Americans reject the Trump-GOP extremist agenda. Join this strategy and get leadership actively on the ground. Do NOT reinvent a message. Put leadership in charge to help deliver it! The appeal and grassroot support is huge! It must continue to expand to millions more to stymy and defeat Trump and MAGA GOP. The DNC must remove Party leadership who have shown they are not equal the task of implementing the effective strategy or communicating the broadly popular political agenda of Sanders & AOC against the Trump-GOP extremists. (Those not up to the task include Biden & Schumer.)

Discuss and aver that Trump is holding office in violation of the Constitution and should be ejected UNLESS 2/3 of both houses remove his disability- AS STATED IN THE CONSTITUTION 3. Start investigations into the 2024 Election tampering- via massive voter suppression- see Greg Palast's Vigilantes Inc documentary- and via Elon Musk money and interference & possible tampering of the voting machine software stolen by MAGA thugs during their assaults on various election offices after the 2020 election, taking advantage of the over 60 bomb threats in the battleground states on 2024 election day. There are analytical indications of voting results showing unnatural suspicious voting patterns. Trump even publicly thanked Musk for his help in PA, remarking about Elon's knowledge of the voting machines and how "we then won in a landslide". Start an investigation into the election results in the battleground states.

Patricia Frederick	Ashburnham	MA	We have known for a long time that the so-called "leaders" of the Democratic Party are more afraid of the left flank of their own party than of the Republican/Fascist Party. They have tried to ignore or hinder Bernie Sanders, AOC and others, who actually represent the political priorities of the majority of voters in this country. I believe this is a direct result of Big Money donors' control of our government. We need to stop all donations over $200.00 and get rid of the disastrous "Citizens United" decision.

Eliminate this or change the name of the organization to remove the word "Democratic" as it has NOT been that since this perversity was contrived and brought into existence. Next, remove the entire list of officers and primary decision makers involved in the 2024 election. While these individuals may have had the best of intensions they are not right for the current fight for our future and need to move back to strictly supporting roles. Then, create a blacklist of Consultants that continue to encourage the same campaign strategies of begging for donations, spending on TV ads and milquetoast policy proposals. More is required than just maintaining the status quo ("Save Medicare") - we need a growing vision to inspire for building a better future ("We can and should expand our capacity of healthcare and cut out the For-Profit Insurance middle-men; Medicare For All!,Äù),Äù

If the DNC wants to take back anything they better step up, call out the source of our inequities, which is corporate power and greed and start representing the masses, the working class and the disenfranchised. The DNC exerts more effort at stopping progressives than it even pretends to do to stop Trump. Pay attention to what's happening right now across the country. Unprecedented crowds, of Democrats, Independents & Republicans, coming out, mid-day, mid-week, for what.... for who...? For a rallying call to stand up and push back against corporate interests, self-serving politicians, corrupt campaign finance laws, elitist greed and the current authoritarian regime. Whose policy agendas are they coming out in mass for... Bernie Sanders & AOC. Why, because they speak to and empower the people. Because they call out the corruption, fraud, injustice and inequities across the board. It's time to stop drinking from your own punch bowl. The people do not want more mainstream centrist democrats and their "virtue signaling" lip service. Wake up and get on board or get off the train!

What passes for the Republican Party is entirely under the control of a wannabe dictator, using the very democracy we love to undermine and overthrow our government. By any measure, we are looking at a fast-moving, well-planned takeover by a Trump fascist ideology. Robin Blake	minneapolis	MN	Apparently what you've been doing (not sure what) is not working. Our government is headed to total ruin. Perhaps the DNC should take heed of the danger and look ahead, instead of backward to supporting your past actions and players,to the future, which won't be there as far as our democrcy is concerned unless something is done now.

Neo-liberalism has now cratered into unapologetic fascism. The DNC bears direct responsibility. VP Harris,Äôs embrace of encompassing ‚ÄòU.S. lethality‚Äô and her deprivation of a platform to a Palestinian willing to slice his wrists for two minutes - the end of neoliberalism and the trespass into full-throated authoritarianism. The DNC continues to prioritize the corporate class's needs while ignoring and depriving the concerns and needs of its growing progressive constituents. Long ago I (and many others) have stopped contributing $$$ to the DNC/DCCC and will continue to not support them until they finally change course and serve ,ÄòThe People,Äô first and not corporations, Wall Street and the wealthy. Wake up and quit playing games of half measures, putting your political 'stock' in corporations who don't care one 'share' about the people of this country. Frankly, it's probably too late already and I hope it is, because it's been years since I've seen anything from the DNC that looks like a vision for supporting the needs of working class people. I've held my nose and voted for Democratic candidates for so long, continuously hoping that either they'll govern consistent with their campaign messaging or they'll move to the Republican Party where they'll find a much better ideological fit. Janet Bolasci	Rutherford	NJ	When will someone stop this horror that is going on daily !!!!! We must fight back with strength and courage against a weak tyrant who can be pushed back and CAN fall down!!!!!!! This country is in crisis and there needs to be people in Congress and the Senate who will push back in words and actions. All I hear is silence and lamenting. The lack of action is frightening. The GOP is walking all over everyone in this country, free rein without guard rails. Musk should be arrested for what he is doing, trespassing with a group of boys who have access to private papers. Who the hell are they and why are they not arrested for trespassing and breaking into people's privacy. Trump is deranged, mentally unstable, convicted felon, why the hell is he even president and why can't he be removed from office!!!!!!!! At this point it seems to me this democracy is weak and ready to give in to a dictatorship. DO SOMETHING, DEMOCRATS, FIGHT WITH ALL YOU HAVE AND SAVE THIS COUNTRY. PUSH BACK, SCREAM , YELL, BE STRONG AND CONFIDENT AND STOP THIS HORROR. THIS IS A CRISIS, YOU MUST ACT AND ACT FAST. ALL OF OUR LIVES ARE IN DANGER AND TRUMP IS MAKING FOOLS OF ALL OF YOU!!!!!!!!!!! Performative gestures and empty rhetoric are no longer sufficient. A number of Democratic leaders,Äîsuch as Bernie Sanders, Alexandria Ocasio-Cortez, Jasmine Crockett, and Maxwell Frost,Äîhave demonstrated the courage and clarity needed to meet this moment. However, there is growing concern about the lackluster response and perceived complacency from others in leadership, including House Minority Leader Hakeem Jeffries. A strategy built on excuses, resignation to minority status, or vague messaging is unacceptable. The Democratic Party must adopt a methodical, forward-looking strategy that inspires its base, invites new supporters, and prepares for the challenges ahead. This is not a time for disengagement; it is a time for bold, coordinated, and principled leadership that rises to the occasion with vision and resolve

M J Zupan	Key Largo	FL	Every day this administration chops off another chunk of our democracy. The defying of Federal Court orders and rulings is the defining moment for this president to create his dictatorship. It is plain for all in the world to see and this moment should be glaring proof to you the leadership of the Democratic Party that actions have to be taken. We need to mobilize the population to stop this treasonous attempt to subjugate us all. Get started! Now is the time!
